Covid Protocols:

Let me start by saying it has been a good week as far as protocols are concerned. With the CDC coming out with new protocols regarding facemasks (and Michigan also buying in) I can safely say that if you are fully vaccinated, you will NOT need to wear a facemask at this event. Of course, we cannot ask you if you are fully vaccinated, so you are on the honor system. Take heed that a fully vaccinated individual, has a very slim chance of having the virus transmitted to him/her by a non-vaccinated individual. Having said that, Cornerstone University has still asked us still maintain a system of contact tracing just in case. Therefore, when teams submit their roster, they will need to provide phone number for players and coaches. When spectators purchase an admission, they will need to fill out a contact tracing form provided by AYBT. We also ask that social distancing practices be adhered to. Rapid testing is excluded, All non-vaccinated individuals should wear a facemask.

Seating

Cornerstone has informed us that people need to bring their own chairs for seating on the upper level which looks down onto their three courts in the arena. They will only provide limited chairs.

A team needs to have the same scorekeeper/timekeeper for each game. The scorekeeper is responsible for tuning in a provided scorecard immediately after each game.
